TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the Page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page added between pages 34 and 35 would be page 34.1.
- B. Page Revision Numbering** - Revision numbers also appear in the upper right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, 4th Revised Page 34 cancels the 3rd Revised Page 34. Consult the check Page for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Page** - When a tariff is filed with the Commission, an updated check Page accompanies the tariff filing. The check Page lists the tariff pages, with a cross reference to the current revision number. When new Pages are added, the check Page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this Page if these are the only changes made. The tariff user should refer to the latest check Page to find out if a particular page is the most current on file with the Commission.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.4 Responsibilities of the Customer

- 2.4.1 Customers may be required to enter into a written service order which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services and the terms and conditions in the tariffs of the Company. Customer also may be required to execute any other documents or provide information pertaining to past accounts for similar services as may be reasonably requested by the Company.
- 2.4.2 The Customer is responsible for placing any necessary orders, complying with tariff regulations and assuring that Users comply with tariff regulations. The Customer shall ensure compliance with any applicable laws, regulations, orders or other requirements of any governmental entity relating to services provided by the Company to the Customer or made available by the Customer to another User. The Customer also is responsible for the payment of charges for all Calls originated at the Customer's numbers which are not collect, third party, calling card, or credit card calls.
- 2.4.3 At the expiration of the initial term specified in each Service Order, or any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the service order and the tariffs of the Company prior to termination. The rights and obligations which by their nature extend beyond the termination of the service shall survive such termination.
- 2.4.4 The Customer is responsible for charges incurred for special construction and/or special facilities which the Customer requests and which are ordered by the Company on the Customer's behalf.
- 2.4.5 If required for the provisioning of the Company's services, the Customer must provide the Company, free of charge, with any necessary equipment space, supporting structure, conduit and electrical power.
- 2.4.6 The Customer is responsible for arranging access to its Premises at times mutually agreeable to the Company and the Customer when required for Company personnel to install, repair, maintain, program, inspect or remove equipment associated with the provision of the Company's services.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.4 Responsibilities of the Customer (Cont'd)

- 2.4.7 The Customer must pay the Company for replacement or repair of damage to the Company's equipment or facilities caused by negligent or improper use on the part of the Customer, Users, or others.
- 2.4.8 The Customer must indemnify the Company for the theft of any Company equipment or facilities installed at the Customer's Premises.
- 2.4.9 The Customer agrees to release, indemnify and hold harmless the Company against any and all loss, claims, demands, suits or other action or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss of or damage to any property, whether owned by the Customer or others. The Customer shall reimburse the Company for all costs, expenses and fees, including reasonable attorneys' fees, incurred by the Company in its defense against such actions.

2.5 Allowances for Interruptions in Service

2.5.1 General

- 2.5.1.A A service is interrupted when it becomes unusable to the User, *e.g.*, the User is unable to transmit or receive communications due to the failure of a component furnished by the Company under this tariff.
- 2.5.1.B An interruption period begins when the User reports a service, facility or circuit to be inoperative and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative.
- 2.5.1.C If the User reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, the service, facility or circuit is considered to be impaired but not interrupted. No credit allowances will be made for a service facility or circuit considered by the Company to be impaired.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.5 Allowances for Interruptions in Service (Cont'd)

2.5.1 General (Cont'd)

2.5.1.D The Company will normally clear all trouble of an emergency nature at all hours, consistent with the needs of Customers and the personal safety of Company personnel.

2.5.1.E The Company normally will clear all other trouble calls not requiring unusual repair, such as cable failures, within 24 hours of the report received by the utility, excluding Sundays and holidays unless the Customer agrees to another arrangement.

2.5.2 Application of Credits for Interrupted Services

2.5.2.A At the Customer's request, a credit allowance will be given for a continuous interruption of service for a period of twenty-four (24) hours or more after being found or reported.

2.5.2.B Any such interruption will be measured from the time it is reported to or detected by the Company, whichever occurs first.

2.5.2.C In the event the User is affected by such interruption for a period of less than twenty-four (24) hours, no adjustment will be made. No adjustments will be earned by accumulating non-continuous periods of interruption.

2.5 Allowances for Interruptions in Service (Cont'd)

2.5.3 Limitations on Allowances

- 2.5.3.A No credit allowance will be made for any interruption of service:
- 2.5.3.A.1 due to the negligence of, or noncompliance with the provisions of this tariff by, any person or entity other than the Company, including but not limited to the Customer or other entities or carriers connected to the service of the Company;
 - 2.5.3.A.2 due to the failure of power, equipment, systems or services not provided by the Company;
 - 2.5.3.A.3 due to circumstances or causes beyond the control of the Company;
 - 2.5.3.A.4 during any period in which the Company is not given full and free access to the Customer's or Company's facilities and equipment for the purpose of investigating and correcting the interruption;
 - 2.5.3.A.5 during any period in which the User continues to use the service on an impaired basis;
 - 2.5.3.A.6 during any period in which the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
 - 2.5.3.A.7 that occurs or continues due to the Customer's failure to authorize replacement of any element of special construction; and
 - 2.5.3.A.8 that was not reported to the Company within thirty (30) days of the date that service was affected.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.6 Termination of Service

- 2.6.1 A Customer may terminate service, with or without cause, by giving the Company notice, either verbal or written, except where cause must be provided pursuant to the Customer's contract or Service Order. If a Customer orders services requiring special equipment and/or facilities dedicated to the Customer's use and then cancels the order before the service begins, a charge will be made to the Customer for the non-recoverable portions of expenditures or liabilities incurred expressly on behalf of the Customer by the Company.
- 2.6.2 Upon five (5) business days written notice to the Customer, the Company may discontinue service or cancel an application for service without incurring any liability for any of the following reasons:
- 2.6.2.A Failure of the Customer to pay a non-disputed delinquent account;
 - 2.6.2.B Failure of the Customer to make satisfactory arrangements to pay arrearages or meet the requirements of a payment agreement;
 - 2.6.2.C Failure of the Customer to permit the Company to have reasonable access to its equipment, facilities, service connections or other property;
 - 2.6.2.D Failure of the Customer to provide the Company with adequate assurances that an unauthorized use or practice will cease;
 - 2.6.2.E Customer violation of any regulation governing the service under this tariff, or a violation of any law, rule, or regulation of any government authority having jurisdiction over the service;
 - 2.6.2.F Company is prohibited from furnishing services by order of a court or other government authority having jurisdiction;
 - 2.6.2.G Customer fraud or material misrepresentation of identity for purpose of obtaining telephone service; or
 - 2.6.2.H Failure of the Customer to adhere to contractual obligations with the Company.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.7 Payment of Charges

- 2.7.1 The Customer is responsible for payment of all charges for service furnished by the Company to the Customer and Users, regardless of whether those services are used by the Customer itself or are resold to or shared with other persons.
- 2.7.2 Recurring monthly charges may be invoiced one month in advance. Invoicing cycles are approximately thirty (30) days in length, and payment is due upon receipt. Payment will be considered timely if paid within twenty (20) days of the billing date. After twenty (20) days, payment will be considered late.
- 2.7.3 The Company reserves the right to assess late payment charges for Customers whose account(s) carries principal owing from the prior billing period. Any charges not paid in full by the due date indicated on the billing statement may be subject to a late fee of 1.5% per month.
- 2.7.4 Customers must notify the Company either verbally or in writing of any disputed charges within thirty (30) days of the billing date, otherwise all charges on the invoice will be deemed accepted. All charges remain due and payable at the due date, although a Customer is not required to pay any disputed charges during the time period in which the Company conducts its investigation into the matter.
- 2.7.5 In the event of a dispute concerning a bill, Customers must pay a sum equal to the amount of the undisputed portion of the bill and proceed with the complaint procedures set forth in this tariff.

2.8 Deposits

The Company will not require deposits from Customers.

2.9 Advance Payments

The Company will not require advance payments from Customers.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.10 Contested Charges

All bills are presumed accurate, and shall be binding on the Customer unless objection is received by the Company within thirty (30) days of the billing date, either verbally or in writing. In the event that a billing dispute between the Customer and the Company for service furnished to the Customer cannot be settled with mutual satisfaction, the Customer may take the following course of action:

2.10.1 First, the Customer may request, and the Company will provide, an in-depth review of the disputed amount. (The undisputed portion and subsequent bills must be paid on a timely basis or the service may be subject to disconnection.)

2.10.2 Second, if there is still a disagreement about the disputed amount after investigation and review by the Company, the Customer may file an appropriate complaint with the Georgia Public Service Commission. The address of the Commission is:

Georgia Public Service Commission
47 Trinity Avenue
Atlanta, GA 30334
(404) 656-4501
800-282-5813 (Georgia Only)

2.11 Taxes

The Customer is responsible for the payment of Federal excise taxes, state and local sales and use taxes, fees and other exactions imposed on the Company or its services by governmental jurisdictions, other than taxes imposed generally on corporation. All such taxes, fees and charges shall be billed separately as separate items and are not included in the quoted rates for local exchange service.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.12 Transfers and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the Services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company, (b) pursuant to any sale or transfer of substantially all the assets of the Company, or (c) pursuant to any financing, merger or reorganization of the Company.

2.13 Temporary Promotional Programs

The Company may establish temporary promotional programs under which it may waive or reduce non-recurring or recurring charges, to introduce present or potential Customers to a Service not previously received by the Customers. The specific terms of each promotional program shall be filed with the Commission within 30 days of its effective date.

2.14 Application of Rates

2.14.1 Introduction

The regulations set forth in this Section govern the application of rates for services contained in Section 4 of the tariffs of the Company.

2.14.2 Rates Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- a. Unless otherwise specified, calls are timed in one minute increments. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.
- b. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.14 Application of Rates (Cont'd)

2.14.2 Rates Based on Duration of Use (Cont'd)

- c. Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.

2.14.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- a. Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated access line), the Company will apply the Rate Center of the Customer's main billing telephone number.
- b. The airline distance between any two Rate Centers is determined as follows:
 - 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.
 - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
 - 3) Square each difference obtained in step (2) above.
 - 4) Add the square of the "V" difference and the square of the difference obtained in step (3) above.
 - 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.15 Timing of Calls

- 2.15.1 The Customer's monthly usage charges for the Company service are based upon the total number of minutes the Customer uses and the service options to which the Customer subscribes. Chargeable time begins at the time the called party answers (*i.e.* when two-way communications is possible), and ends when either party hangs up.
- 2.15.2 No charges apply if a Call is not completed.
- 2.15.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum Call duration is one (1) minute for a connected Call.
- 2.15.4 Where applicable, charges will be rounded up to the nearest penny.
- 2.15.5 Usage begins when the called party picks up the receiver (*i.e.* when two-way communication is possible). A Call is terminated when the calling or called party hangs up. The Company utilizes software answer supervision, which permits up to sixty (60) seconds of ringing before the Call becomes billed usage. Where answer supervision is not available, any Call for which the duration exceeds sixty (60) seconds shall be presumed to have been answered and becomes billed usage.
- 2.15.6 The Company will not knowingly charge for Incomplete or unanswered Calls. Upon the Customer's request and proper verification, the Company shall promptly adjust or credit the Customer's account for charges or payments for any Incomplete or unanswered Call inadvertently billed due to the unavailability of Feature Group D or due to another carrier's failure to provide answer supervision. Upon the Customer's request and proper verification, the Company also shall promptly adjust or credit the Customer's account for charges or payments for Calls placed to a wrong number.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.16 Start of Billing

For billing purposes, the start of service is the day following acceptance by the Customer of the Company's service or equipment, or another date mutually agreed-upon by the Customer and the Company. The end of service date is the last day of the minimum notification of cancellation or any portion of the last day, after receipt by the Company of notification of cancellation, or another date mutually agreed-upon by the Customer and the Company.

2.17 Minimum Call Completion Rate

The Customer may expect a Call completion rate of at least ninety-percent (90%) of dialed, local interoffice calls attempted during peak use periods or the busy hour.

2.18 County Wide Calling

Pursuant to GA Code Ann. § 46-5-25.1, all toll Calls originating and terminating within the same county are toll-free.

2.19 0-22 Mile Band Restriction

Pursuant to GA Code Ann. § 46-2-25.2, all toll Calls originating and terminating between central offices that are within 22 miles of each other are toll-free.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Local Exchange Services

3.2.1 Standard Access Line

The Standard Residential or Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one Line provided by Company. Standard Access Lines enable the customer to:

- (a) place or receive calls to any station in the local calling area, as defined herein;
- (b) access enhanced 911 Emergency Service where available;
- (c) access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- (d) access Operator Services;
- (e) access Directory Assistance;
- (f) place or receive calls to 800 numbers;
- (g) access Telecommunications Relay Service.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge listed in Section 4.

3.2.1.A Off Premise Extension

Extension service is an extension of lines at locations in addition to the location of the main line. Extension service is connected to an individual, auxillary two party or four party line for the same subscriber and with the same telephone number.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Local Exchange Services (Cont'd)

3.2.2 Local Calling Services

3.2.2.A Local Residential Line Service

Local Residential Line Service provides Residential Customers with the ability to originate calls from a Company-provided access line to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in the Customer's local calling area. Service is provided on a flat or measured use basis and may be provided in conjunction with other services and products included in this Section.

3.2.2.B Local Business Line Service

Local Business Line Service provides a Business Customer with the ability to originate calls from Company-provided access lines to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in the Customer's local calling area. Service is provided on a flat or measured use basis and may be provided in conjunction with other services and products included in this Section.

3.2.2.B.1 Business Service Plan (BSP)

The Business Service Plan is an individual business line service, offered with touch tone service at no additional charge, that allows Customers to choose between two LATA wide calling options. Customers may choose either (a) a flat rated plan with unlimited intra-LATA calling or (b) a combination rated plan with unlimited usage within the basic service area for a flat rate and single per minute rate for all other intra-LATA calling. Also, the service may include Caller ID and be offered as BSP Plus.

3.2 Local Exchange Services (Cont'd)

3.2.2 Local Calling Services (Cont'd)

3.2.2.B Local Business Line Business (Cont'd)

3.2.2.B.2 Fall Back Line

Fall Back Line is an optional service which provides individual line business subscribers with an additional line for inward and outward calling.

3.2.2.C Extended and Expanded Area Calling Services

Extended and Expanded Area Calling Service allows the Customer to make calls to specific NXX codes within designated exchanges outside the Customer's Local Calling area without paying intraLATA toll rates. The Customer is billed per call according to the duration of the call. Company will mirror all existing extended and expanded calling areas the ILEC currently has in place for facilities-based or resold services.

3.2.2.D Private Branch Exchange (PBX)

The Company's PBX Service uses PBX trunks to connect a customer PBX system or other similar equipment to the Company Central Office. Company treats these trunks similar to individual exchange lines and supports multi-line hunting over a group of trunks.

3.2.2 Local Calling Services (Cont'd)

3.2.2.E Direct Inward Dialing Service

Direct Inward Dialing (“DID”) Service is an optional feature provided in conjunction with Company-provided PBX Trunks. DID Service permits incoming calls from the exchange network to reach a specific station line without the assistance of an attendant through the use of a seven digit number. DID service transmits the dialed digits for all incoming calls allowing the Customer’s PBX to route incoming calls directly to individual stations corresponding to each individual DID number. DID is furnished upon the condition that the customer contract for adequate facilities, e.g., dial tone lines, circuit packs or equivalent, etc, to permit the use of the service without injurious effect on general telephone service. Certain conditions, such as transmission limitations, may require the provision of additional switching equipment on the customer’s premises in order to furnish DID service. The Company offers DID services to Customers in minimum blocks of twenty (20) telephone numbers.

3.2.2.E.1 Ring Control Service

This service provides additional overflow paths on the same line. In addition, this service may be offered in conjunction with a distinctive ring feature.

3.2.2.F Centrex Services

Centrex Service provides the Customer with multiple individual voice-grade telephone communications channels, each of which can be used to place or receive one call at a time. Centrex Station Lines are provided for connection of Centrex-compatible Customer-provided station sets to the public switched telecommunications network. Each Centrex Station Line may be provided in combination with other Company-provided services including PBX and ISDN.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.3 ISDN Services

National Integrated Services Digital Network (ISDN) Direct is a telecommunications service that provides an integrated voice/data communications capability for the transmission of circuit switched voice and data and packet switched data signals on an incoming and outgoing basis utilizing Integrated Services Digital network architecture.

3.3.1 ISDN Primary Rate Interface (PRI)

Service provides the Business Customer with a direct digital connection, via switched access, to one or more public and/or private services. The service arranges the 64 Kbps channels of a DS1 into 23 B (Bearer) channels and 1 D (Delta) channel or 24 B channels under control of a D channel residing on a separate PRI facility. The B channels carry voice and data traffic at speeds up to 64 Kbps. The D channel carries the out-of-band signaling required to control its associated B channels.

3.3.2 Individual Line Business ISDN Basic Rate Interface (BRI)

Service is an optional service arrangement which can be used in conjunction with a customer's Individual Line Business service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport. Service provides two bearer B-channels at 64 Kbps per second and a data D-channel at 16 Kbps per second. The bearer B-channels are designed for PCM voice, video conferencing, group 4 facsimile machines, etc. The data D-channel is for bringing in information about incoming calls and taking out information about outgoing calls.

3.8.6 Directory Assistance Call Completion

Directory Assistance Call Completion Service provides the Customer with the ability to use a directory assistance operator to provide listing information and to automatically dial the number requested.

3.8.7 Directory Listings

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. Directory listings are provided in connection with each Customer service as specified herein. The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made. The following types of listings will be made available: (1) primary; (2) additional; (3) non-published; (4) non-listed; (5) alternate call; and (6) reference.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.8 Miscellaneous Local Features (Cont'd)

3.8.8 Local Number Portability

Local Number Portability is a service that enable the End User to retain use of the existing local exchange Carrier's number after choosing the Company as its local exchange carrier, provided that the Customer's location remains within the existing rate center after the switch. Where applicable, the Company will assess on End User Customers a monthly fee or fees to recover the Company's costs of porting the Customer's number/s from its existing Carrier to the Company.

3.8.9 Personalized Telephone Number

Personalized Telephone Number is an optional feature by which a new Customer may request a specific or unique telephone number and fax number for use with the Company provided Exchange Services. This service provides for the assignment of a Customer requested telephone number other than the next available number from the assignment control list. Personalized Telephone Number is furnished subject to the availability of facilities and the requirements of Exchange Service as defined by the Company. The Company reserves all rights to the Personalized Telephone Numbers assigned to Customer's and may, therefore, change them if required.

3.8.10 Telecommunications Relay Services

Telecommunications Relay Service ("TRS") enables deaf, hard-of-hearing or speech impaired persons who use a Text Telephone ("TT) or similar device to communication freely with the hearing population not using TTs and vise versa. The Company will provide access to TRS through arrangements with other telecommunications carriers to enable Customers to access the TRS state provider to complete TRS Calls. The Company will impose a surcharge to all Customers at a level determined by the Commission.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.9 Custom Calling Features

- 3.9.1 Automatic Call Return/*69: Enables a Customer to automatically return the last incoming Call. To return the call, the Customer dials a feature Code and the number is dialed automatically. If the called line is busy, a 30-minute queuing process begins. The Customer is then given an indication that the network will attempt to set up the Call when the called line is idle.
- 3.9.2 Call Forwarding: Permits the Customer to forward calls to any telephone number or station in the Customer Group that their station is allowed to call, including voicemail and attendant. This feature may also include the ability to activate from a remote location.
- 3.9.3 Call Forwarding/Three Way/Waiting: This package allows end users to combine the following three features – call forwarding, call waiting and three way calling.
- 3.9.4 Caller ID with Name: This feature provides the originating telephone number and also the name associated with the line. The information is displayed on a Customer provided display device attached to the Customer's telephone line.
- 3.9.5 Caller ID Intercept: This feature is an enhancement to Caller ID with Name. It allows users to request callers identify themselves prior to answering the incoming call, even when callers are calling from blocked numbers or from numbers that do not send identifying information.
- 3.9.6 Call Selector: This feature allows a Customer to have up to six separate telephone numbers which consists of the main telephone number and five additional telephone numbers, associated with one exchange access line. Each telephone number will have a distinctive ring on incoming calls to allow the Customer to identify the incoming call line. All telephone lines must be served by the same Central Office.
- 3.9.7 Call Trace/*57: Allows a called party to initiate an automatic trace of the last call received. Call Trace is available on a usage base only. After receiving the call which is to be traced, the customer dials a code and the traced telephone number is automatically sent to the Company. The customer using Call Trace is required to contact the Company for further action and will not receive the traced telephone number. The results of a trace will be furnished only to legally constituted authorities upon proper request by them.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.9 Custom Calling Features (Cont'd)

- 3.9.8 Call Transfer: Allows the User to transfer a Call to another station within the Customer Group or to an outside telephone number.
- 3.9.9 Call Waiting: Permits the end-user engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switch hook, to place the first call on hold and answer the waiting call. The Customer may alternate between the two calls by operation of the switch hook, but a three-way conference call cannot be established. Feature may be used in conjunction with Caller ID (Caller ID Intercept).
- 3.9.10 Enhanced Caller ID w/Anonymous Call Rejection: A service that block calls from callers who have prevented their name and telephone number from being displayed on a Caller ID display device. A recording instructs callers how to unblock their call.
- 3.9.11 Internet Call Waiting: This feature provides residential customers, while accessing the internet, with an incoming calling party's name and telephone number information, as well as options for call disposition.
- 3.9.12 Message Waiting Indication: This feature enables end users to receive an indication on their line that a message is waiting. The indication may be a tone of some kind, or a stutter.
- 3.9.13 Remote Call Forwarding: This is a service whereby a call is placed from a station to a customer's telephone number is automatically forwarded by the Company's central office equipment to another station designated by the Customer.
- 3.9.14 Repeat Dialing/*66: Automatically redials the last outgoing telephone number dialed by the Customer.
- 3.9.15 Selective Call Rejection: This feature allows the Customer to have originating 1+, 101XXXX1+, 10XXX1+, 976 and 900 number service calls blocked by a central office. In addition, specific screening information is sent to the entity conducting operator services to prevent operator assisted connection to the Customer's blocked line.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.9 Custom Calling Features (Cont'd)

- 3.9.16 Speed Calling (8 or 30): Permits the Customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than complete telephone numbers. The feature is available as an eight code list or a thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the Customer dials an activating code, receives a second dial tone and dials either a one- or two-digit code (for the eight code and thirty code lists, respectively) plus the telephone number.
- 3.9.17 Surrogate Client Number: This feature provides for a telephone number in the subscribers serving wire center from which calls will be forwarded on an intra-office basis to the subscriber's exchange service.
- 3.9.18 Three Way Calling: Permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.
- 3.9.19 Three Way Calling with Transfer: Permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls. In addition, this feature allows the calling party to disconnect without terminating the connection between the two called parties.
- 3.9.20 Voice Mail: Provides an audio mailbox to record, store, retrieve, review, save and handle audio messages for Customers. The service will greet incoming customers with a personal or standard greeting, and provide audio prompts and personal security codes for Customers and Users of Service. Additional message capacity for the voice mail box may be purchased.
- 3.9.21 Voice Mail Companion Package: For Customers with Voice Mail, this service provides call forwarding and a message waiting indicator for use in conjunction with Voice Mail.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.11 Miscellaneous Services Charges

3.11.1 Reconnection

Reconnection charges occur where service to an existing Customer has been disconnected for proper cause, and the Customer desires to resume service with the Company. If service has been discontinued for proper cause and where a Customer desires reconnection, the Customer will be charged a fee to defray the cost of providing service.

3.11.2 Missed Appointment Charge

When the Company and the Customer have agreed to an installation date and time, and the Customer is not available at the premises to allow for installation of service at the appointed time, a Missed Appointment Charge will apply. Customers may not cancel or change installation dates or times on less than 48 hours notice to the Company unless otherwise agreed to by the Company.

3.11.3 IntraLATA Toll Presubscription

IntraLATA Toll Presubscription is a procedure whereby a Customer designates to the Company the Carrier that the Customer wishes to use as its primary interexchange carrier ("PIC") for intraLATA toll calls. Such calls are automatically designated to the intraLATA PIC, without the need to use carrier access codes or additional dialing to direct the Call to the designated Carrier. IntraLATA Toll Presubscription does not prevent a Customer who has presubscribed to an IntraLATA toll Carrier from using carrier access codes or additional dialing to direct Calls to an alternative intraLATA toll Carrier on a per Call basis. All new Customer' initial requests for intraLATA toll service presubscription will be provided free of charge.

SECTION 6 - PROMOTIONAL, SPECIAL SERVICES AND TELECOMPETITIVE SERVICE OFFERINGS

6.1 General Description

From time to time, Company shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which, if not matched or bettered, would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Company either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer's right to obtain a Promotional, Special Service and/or Telecompetitive Service offering.
