TARIFF FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the Page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page added between pages 34 and 35 would be page 34.1.
- B. Page Revision Numbering - Revision numbers also appear in the upper right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, 4th Revised Page 34 cancels the 3rd Revised Page 34. Consult the check Page for the page currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
  - 2
  - 2.1
  - 2.1.1
  - 2.1.1.A
  - 2.1.1.A.1
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a).I
  - 2.1.1.A.1.(a).I.(i)
  - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Page - When a tariff is filed with the Commission, an updated check Page accompanies the tariff filing. The check Page lists the tariff pages, with a cross reference to the current revision number. When new Pages are added, the check Page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this Page if these are the only changes made. The tariff user should refer to the latest check Page to find out if a particular page is the most current on file with the Commission.

The regulations set forth in this Section govern the application of rates for services contained in Section 4 and 5 of the tariffs of the Company.

2.13.2 Rates Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- a. Unless otherwise specified, calls are timed in one minute increments. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.

2.14.2 Rates Based on Duration of Use (Cont'd)

- c. Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.

2.13.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- a. Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated access line), the Company will apply the Rate Center of the Customer's main billing telephone number.
- b. The airline distance between any two Rate Centers is determined as follows:
  - 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.
  - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
  - 3) Square each difference obtained in step (2) above.
  - 4) Add the square of the "V" difference and the square of the difference obtained in step (3) above.
  - 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

If the called line is busy, a 30-minute queuing process begins. The Customer is then given an indication that the network will attempt to set up the Call when the called line is idle.

3.4.2 Busy Number Re-dial: This feature automatically redials another party's phone number after the Customer's first attempt to connect to that number resulted in a busy signal. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive other calls while the feature is activated.

3.5 Maintenance and Installation Charges

3.5.1 Maintenance Visit Charges

Maintenance Visit Charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for resolving troubles reported by the Customer and the trouble is found to be caused by the Customer's facilities. The time period for which the Maintenance Visit Charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for Maintenance of Service vary by time per Customer request. Prior to visiting a customer premise, where applicable, the Company shall first inform Customers who call with service problems of the network interface device ("NID"), as well as inform these Customers of how to use the NID to isolate trouble to the inside or outside line. If there is no NID at the customer's premises or it is inaccessible to the customer, no maintenance charges shall apply for Company personnel to visit the Customer's premises for purposes of conducting diagnostics to determine the location of the problem. Should the problem be identified as caused by the Customer's facilities, however, charges shall apply for all work subsequently conducted in the Customer's premises.

3.5.2 Service/Installation Ordering Charge

This charge applies to receiving, recording and processing Customer requests for work to be done in connection with the same service at the same time at one or more locations of that service. It has three possible applications: (1) connection new or additional exchange access lines; (2) move or change existing service and equipment or add new or additional service and equipment other than exchange access; (3) record type only change.

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in unusual locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to weekends, holidays, and/or night hours, additional charges may apply.

3.5.4 Central Office Exchange Access Line Charge

This covers work associated with the line extending from the serving central office up to and including the Rate demarcation Point on the customer's premises. SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.6 Miscellaneous Services Charges

3.6.1 Reconnection

Reconnection charges occur where service to an existing Customer has been disconnected for proper cause, and the Customer desires to resume service with the Company. If service has been discontinued for proper cause and where a Customer desires reconnection, the Customer will be charged a fee to defray the cost of providing service.

3.6.2 Missed Appointment Charge

When the Company and the Customer have agreed to an installation date and time, and the Customer is not available at the premises to allow for installation of service at the appointed time, a Missed Appointment Charge will apply. Customers may not cancel or change installation dates or times on less than 48 hours notice to the Company unless otherwise agreed to by the Company. The Missed Appointment Charge shall not apply where the trouble is isolated to the outside.

3.6.3 Bad Check Charge

If payment for Service is made by a check, draft, or similar instrument (collectively "Check") that is returned to the Company unpaid by a bank or other financial institution for any reason, the Company may bill the Customer a returned check charge. In addition, the Customer may be required to replace the returned Check with a payment in cash or equivalent to cash, such as cashier's check, certified check or money order.

3.6.4 Late Payment Fee

A late payment fee of 1.5% will be applied to service charges not paid by the due date of the bill. The late payment fee will not be applied to previous late payment charges that have been assessed but remain unpaid, but will apply to the accumulated amount for which the Customer is in arrears.

**SECTION 8 - PROMOTIONAL, SPECIAL SERVICES AND TELECOMPETITIVE SERVICE OFFERINGS**

**8.1 General Description**

From time to time, Company shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which, if not matched or bettered, would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Company either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer's right to obtain a Promotional, Special Service and/or Telecompetitive Service offering.

8.2 Customer Loyalty Plan

Customers who qualify as either a "save" or a "winback" and who meet the eligibility requirements set forth herein will receive a credit on either their 4, 6<sup>th</sup> or 9<sup>th</sup> invoice as selected by Customer upon service initiation and as provided following.

8.2.1 For each three, five or eight invoices (for credit months 4, 6 and 9, respectively) of consecutive uninterrupted service, a credit shall be calculated equal to the lower of either (i) the average of the Customer's monthly charges excluding fees, taxes, surcharges, assessments, and similar charges ("eligible charges"), for the preceding consecutive eight-month period; or (ii) a credit which equals the eligible charges on the invoice in which the credit is applied.

8.2.2.A have initiated service;

8.2.2.B have no record of nonpayment in any of the preceding consecutive twelve-month period of service;

8.2.2.C have received eight consecutive and uninterrupted invoices over the preceding eight-month period;

8.2.2.D have selected the 9<sup>th</sup> invoice free bonus incentive prior to the first day in the period of service covered by Customer's ninth invoice; and

8.2.2.E pay all charges rendered in Customer's ninth invoice in excess of the amount of the applicable credit as calculated preceding.

8.2.3 Beginning July 15, 2006, customers receiving a credit under the "Every Fourth Invoice Free" Customer Loyalty Plan, will have the "Every Fourth Invoice Free" Customer Loyalty Plan removed from their accounts, and will have the "Every Ninth Invoice Free" Customer Loyalty Plan added to their accounts in substitution. For purposes of calculating when a customer will receive a credit under the newly substituted "Every Ninth Invoice Free" Customer Loyalty Plan, the Company will begin the calculation with the customer's first invoice following the last credit invoice under the "Every Fourth Invoice Free" Customer Loyalty Plan.
