SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.14 Application of Rates (Cont'd)

2.14.2 (Cont'd)

- c. Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.

2.14.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- a. Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated access line), the Company will apply the Rate Center of the Customer's main billing telephone number.
- b. The airline distance between any two Rate Centers is determined as follows:
 - 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.
 - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
 - 3) Square each difference obtained in step (2) above.
 - 4) Add the square of the "V" difference and the square of the difference obtained in step (3) above.
 - 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.15 Timing of Calls

- 2.15.1 The Customer's monthly usage charges for the Company service are based upon the total number of minutes the Customer uses and the service options to which the Customer subscribes. Chargeable time begins at the time the called party answers (i.e. when two-way communications is possible), and ends when either party hangs up.
- 2.15.2 No charges apply if a Call is not completed.
- 2.15.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum Call duration is one (1) minute for a connected Call.
- 2.15.4 Where applicable, charges will be rounded up to the nearest penny.
- 2.15.5 Usage begins when the called party picks up the receiver (i.e. when two-way communication is possible). A Call is terminated when the calling or called party hangs up. The Company utilizes software answer supervision, which permits up to sixty (60) seconds of ringing before the Call becomes billed usage. Where answer supervision is not available, any Call for which the duration exceeds sixty (60) seconds shall be presumed to have been answered and becomes billed usage.
- 2.15.6 The Company will not knowingly charge for Incomplete or unanswered Calls. Upon the Customer's request and proper verification, the Company shall promptly adjust or credit the Customer's account for charges or payments for any Incomplete or unanswered Call inadvertently billed due to the unavailability of Feature Group D or due to another carrier's failure to provide answer supervision. Upon the Customer's request and proper verification, the Company also shall promptly adjust or credit the Customer's account for charges or payments for Calls placed to a wrong number.

SECTION 7 - PROMOTIONAL, SPECIAL SERVICES AND TELECOMPETITIVE SERVICE OFFERINGS

7.1 General Description

From time to time, Company shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which, if not matched or bettered, would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Company either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer's right to obtain a Promotional, Special Service and/or Telecompetitive Service offering.

SECTION 7 - PROMOTIONAL, SPECIAL SERVICES AND TELECOMPETITIVE SERVICE
OFFERINGS (Cont'd)

7.2 Customer Loyalty Plan

Customers who qualify as either a “save” or a “winback” and who meet the eligibility requirements set forth herein will receive a credit on either their 4, 6th or 9th invoice as selected by Customer upon service initiation and as provided following.

7.2.1 For each three, five or eight invoices (for credit months 4, 6 and 9, respectively) of consecutive uninterrupted service, a credit shall be calculated equal to the lower of either (i) the average of the Customer’s monthly charges excluding fees, taxes, surcharges, assessments, and similar charges (“eligible charges”), for the preceding consecutive eight-month period; or (ii) a credit which equals the eligible charges on the invoice in which the credit is applied.

7.2.2 To be eligible for the 4th, 6th or 9th invoice free bonus, each Customer must:

7.2.2.A have initiated service;

7.2.2.B have no record of nonpayment in any of the preceding consecutive twelve-month period of service;

7.2.2.C have received eight consecutive and uninterrupted invoices over the preceding eight-month period;

7.2.2.D have selected the 9th invoice free bonus incentive prior to the first day in the period of service covered by Customer’s ninth invoice; and

7.2.2.E pay all charges rendered in Customer’s ninth invoice in excess of the amount of the applicable credit as calculated preceding.

7.2.3 Beginning July 15, 2006, customers receiving a credit under the “Every Fourth Invoice Free” Customer Loyalty Plan, will have the “Every Fourth Invoice Free” Customer Loyalty Plan removed from their accounts, and will have the “Every Ninth Invoice Free” Customer Loyalty Plan added to their accounts in substitution. For purposes of calculating when a customer will receive a credit under the newly substituted “Every Ninth Invoice Free” Customer Loyalty Plan, the Company will begin the calculation with the customer’s first invoice following the last credit invoice under the “Every Fourth Invoice Free” Customer Loyalty Plan.
